Advances in Exercise Referral Training
The world can have no boundaries in the quest for medical and rehabilitative answers and knowledge of the heart. Using Cardiac Rehabilitation research and working together worldwide, we can achieve continuing advancement for all.

Written embracing the most current research findings from the UK, Europe, Australia and the USA including the outstanding findings from our own WRIGHT Foundation Research. This new and gold standard course is written by leading researchers, cardiologists, sport and exercise medicine specialists, sports scientists and fitness professionals.

The course is endorsed for accuracy and content by leading cardiac specialists from the UK, Europe and the USA. The contents go beyond the National Standard with:

- new, but soundly proven research into the ever progressing world of Cardiac Rehabilitation. As is expected from the WRIGHT Foundation, patient safety and wellbeing has been paramount in the compilation of this course.

- Practical experience and research into UK, European, Australia and USA rehab systems have ensured this is the gold standard for Cardiac Rehabilitation Phase IV.
Level 4 Cardiac Rehab. Phase IV qualification

This is a 5 day course delivered at venues across the UK and Internationally by experienced University lecturers and boasting the most comprehensive syllabus.
